From Brand: Chipstone : Ceramics in America 2004 (Ceramics in America Annual) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ceramics in America 2004 (Ceramics in America Annual):

The 2004 issue features many important articles including the first color publication of America's earliest stoneware factory-The Poor Potter of Yorktown. In addition, other articles feature previously unpublished information about several important American Salt-glazed stoneware potters. The redware products of Morgantown West Virginia are presented along with information about English porcelain, Maryland tobacco pipes, and a wonderful essay about Bernard Leach's travels in America.
