Atelier Bachwitz : Classic French Fashions of the Twenties (Dover Fashion and Costumes) before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic French Fashions of the Twenties (Dover Fashion and Costumes):

6 of 6 people found the following review helpful. Reprint of a French catalog from 1929 By R. Cohen This book is a beautiful full color reprint of the 1929 catalog of the Atelier Bachwitz company. The images are lovely art decor depictions of women's dress from day to evening wear. There is a short introduction, but little other text. There are no images of undergarments, shoes or accessories beyond what is depicted in the lovely full color illustrations. A great resource for images, but not for historical context or details of undergarments or dress accessories. I'd purchase it to go along with other resources on 1920s costume. 0 of 0 people found the following review helpful. Four Stars By

Exquisite color sketches of French fashion in the 20's. Delicate in color and lines and well worth the money!

This fine reproduction of a 1929 French fashion catalog features styles for all occasions. More than 50 color illustrations showcase elegant dresses, gowns, and coats from the designers of an influential and internationally renowned studio. Designs include a promenade and party frocks of silk, lace, and taffeta, all in the era's distinctive dropped-waist, knee-length mode, forming a panorama of fashions favored by flappers, society matrons, and other women of the 1920s. A rare source of authentic period styles, this volume will prove an excellent guide for designers, costume historians, and collectors of vintage apparel. Color images of Jazz Age fashions are few and far between, and these full-page illustrations offer clear views of trimmings, seaming, and other details. Notes on each model include information about the costume's intended season and occasion, fabrics, and accessories.
