**Everett Grist : Collectible Aluminum: An Identification and Value Guide, Including Hammered Wrought Forged Cast** before purchasing it in order to gage whether or not it would be worth my time, and all praised Collectible Aluminum: An Identification and Value Guide, Including Hammered Wrought Forged Cast:

0 of 0 people found the following review helpful. I could not find much information on Kensington ware. ...By Dorothy B.I could not find much information on Kensington ware. Some one in my family was an important employee of the company and I wanted to know more about it.1 of 1 people found the following review helpful. Good general resource book on collectible aluminum wareBy A CustomerThis book has pictures and descriptions of the many different pieces of aluminum giftware. Grist gives a history of the aluminum industry and development of the market

for aluminum ware. A thumbnail sketch of major manufacturers and artisans is provided. The book includes a price guide with the photos, but I felt the author was NOT clear as to why some articles were more valuable than others. Hand drawn representations of the marks and indices of various makers were shown. Basic index included for researching. An excellent book for some one endeavoring to learn something about the history of aluminum ware as well the types of collectibles available with current prices. A good general reference work for antique dealers, generalists and aluminum collectors. 1 of 1 people found the following review helpful. aluminum guide By nellbell I like this book. It has helped with identification and pricing. I was a bit disappointed with the black and white photos. However, the book was in good condition and was as advertised. Would definitely recommend.

An informative guide including over 430 photos featuring hand wrought, forged, cast, and hammered aluminum. Everything from ashtrays to smoking stands, jewelry to tables, and hundreds of serving pieces. All sizes and shapes are featured. 2003 values. AUTHOR BIO: Everett Grist is the author of several books on marbles: Big Book of Marbles, Machine-Made Contemporary Marbles, and Antique Collectible Marbles. He is also the author of Collectible Aluminum. REVIEW: This book has become a standard for aluminum collectors everywhere. Brief company histories are provided, as well as information on marks, which precedes the pictorial price guide. Readers will see candy dishes, casseroles, coasters, bowls, pitchers, tray, and much more.
