Collecting Books Signed By the Presidents of the U.S.By A CustomerThe first book to be written on the subject. The author, a well known specialist in books signed by Presidents was asked by the collecting community to write this book. Since the writing of this reference book, the same author has written over two hundred articles and educational signature studies on autograph collecting that have been published. For over 20 years this book remains the standard reference work on the subject and it is referred to in scholarly articles written by other authors. Some notables in the autograph industry have said the following about the author: "The autograph fraternity is indeed grateful to Steve koschal" Paul C. Richards, "Steve Koschal has done us quite a service" Joe Rubinfine, "Without a doubt, you will be doing collectors and dealers of autographs a great service" Mark O. Hatfield, U.S. Senator. The first review was left by a very jealous competitor, who has personally asked this author to write articles for a magazine the reviewer represents. One of the articles won a first prizefrom the reviewers own club. The Town of Mt. Dora is the key to who wrote the review. The autograph industry and all ethics boards are well aware of this troubled person. This book is still the standard used by all collectors and dealers who sell presidential autographs. The book covers all the presidents and is fully illustrated. In many cases presidential bookplates are also illustrated. The book also has a handy

chart listing all the presidents, birth and death dated and terms of office. If you want to collect books signed by presidents, this is still the book to own. 0 of 0 people found the following review helpful. Best educational tool for this subject!
