Mary Frank Gaston's third revised edition includes over 100 companies, including Haviland Co., with hundreds of different marks illustrated, many not shown in the earlier editions. With almost 1,200 beautiful full color photographs,

this book contains more than twice as many pictures as the second edition, over 75% being new examples. A new format presents the history, marks, examples, and values together under each Limoges company for an easy to use reference. A section on Limoges miniatures, not discussed in previous editions, has been added. 2005 values.

Since the publication of the first edition of this book in 1980, interest in Limoges porcelain has increased tremendously. This revised edition is arranged by company and/or mark. The history of the Limoges porcelain industry begins the book, followed by the histories, marks, and examples of the major factories, unidentified Limoges companies, and even miniatures. An index and cross reference to companies, initials, and symbols, are provided. -John Alvey
