Alex G. Malloy, Stuart W., III Wells : Comics, Collectibles, and Their Values before purchasing it in order to gauge whether or not it would be worth my time, and all praised Comics, Collectibles, and Their Values:

0 of 0 people found the following review helpful. A good effort. By Roland As a fan of American comic books and related paraphernalia, I really enjoyed this book. True, it perhaps bit off more than it could chew, but what the heck, it was a really good effort on the part of the authors, who have written on everything from fast food toys, to action figures to non-sport trading cards and comic books. What this book really needs, however, is an update. With the

explosion (and implosion) of the late '90s in the comic book field, and the new comic book movies of the early 21st century, I'm sure that there is a ton more stuff that could be added. 0 of 0 people found the following review helpful. Its kind of helpful
By Sid Shrestha
Well this book gives out the basic values of almost every comic collectible ever made. I would reccomend it but rigght now you should probably get something better.
