**Vega Wilkinson : Copeland (Shire Library)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Copeland (Shire Library):

0 of 0 people found the following review helpful. Good introduction to CopelandBy Charlie BoggsThis little book has good pictures and good text. It really just gives a small taste of Copeland. A good book for the for someone who just wants to know a little more about Copeland china. Not good for a reference book for the collector or seller of Copeland.

For 133 years five successive generations of the Copeland family continued to run the Spode Pottery at Stoke-on-Trent, staffordshire, carrying on the tradition of quality and design which had been begun by Josiah Spode I and his

son Josiah Spode II. As fashion and style changed throughout the Victorian and Edwardian era, the firm was at the forefront of the market, with a team of artists who produced a variety of ware ranging from simple menu holders, through household ware to fine hand-painted dessert services. The work of some of the best known artists is illustrated in this book, which also provides the reader with backstamps dating the ware and a short description of some of the most famous pieces of the nineteenth and twentieth centuries. It includes illustrations of Copeland Statuary Porcelain, jewelled ware, fine china, and earthenware and of royal commissions, and it concludes with examples of everyday patterns which are easily collected today.

About the Author Vega Wilkinson's interest in Copeland began in the late 1970s as a collector. Since the mid 1980s she has been studying the art and history of the pottery and the people who made it. She has published articles on Copeland and written the guide to the Copeland China Collection at Treliassick in Cornwall.
