I have in the past bought many curtain books and found them not particularly helpful. After reading this book, I went straight onto their website and ordered other books that they have written.This is probably going to be the best book on Curtains that you will ever buy and thoroughly recommend it.26 of 29 people found the following review helpful. A very Beautiful Curtain BookBy FelisThe Pictures and Designs are the very latest, some of them do not even require sewing. My husband, whom is a Curtain Track Installer for more than 10 years; whom had installed curtain in

more than 1000 homes also feel that the Designs that Catherine drew in this book are not only simple but nice. We are all very impressed by the up-to-date, mostly Simple designs which are very appealing to customers of the young generation. We will recommend our Customers to take these Unique Patterns. We intend to order one more book and cut them as Samples for us to bring round to show our Potential Customers. Thank you Catherine Merrick.
