The book contains 100 ready to frame posters, with additional covers of the series mentioned on the back of the posters. The ready to frame posters are perforated and tear right out of the book. They measure about 13 x 11. The covers look like scans of the vintage comics, and some show their age. I guess they decided to show comic covers with creases to depict the age of the comic. I enjoy that better than having them digitally airbrushed. It looks more like a piece of classic art. If you are hesitant in buying the book because you don't know what ready to frame covers there are inside, here is the list of the 100 covers in the order they show up in the book. 1.
