A welcomed addition to my decoy book library. I can honestly recommend this book to any duck decoy enthusiast !0 of 0 people found the following review helpful. BOOK REVIEWBy DUCK HUNTERThis is an excellent book on decoys. Bought after visiting that region

A genuine labor of love, Loy Harrell has recognized 61 individual decoy carvers, from past to present, located around Lake Champlain. Listed alphabetically, each carver is briefly discussed and examples of their work are illustrated in 263 beautiful color photographs and 52 black and white. There are 352 decoys featured in all. Dr. Harrell has brought

his enthusiasm to the reader through personal interviews with many of these accomplished carvers and adeptly portrays the true personality of decoy enthusiasts of the Lake Champlain area. This book is the first of its kind for the Lake Champlain area and pays a long awaited tribute to its carvers and the decoys they have and still are creating.

About the Author Dr. Harrell lives in Hinesburg, Vermont and practices psychiatry in Burlington, when he is not pursuing his avocation of collecting and selling decoys.
