Joe Keller : Delphite Jadite: A Pocket Guide (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Delphite Jadite: A Pocket Guide (Schiffer Book for Collectors):

2 of 2 people found the following review helpful. Super nice book.By Brian P.Very nice book on Jadite and Delphite

glassware. Well put together book, section for both the Jadite and Delphite glass with lots of color photos, descriptions and values. Provides lots of information on the glassware. Excellent book for anyone collecting or dealing in this type of vintage glassware. It is an older book from 2002 but is still very helpful and informative. I find older price guides are still great to have on hand, and the smaller size of this book makes it easy to carry on trips to auctions, antique malls, etc. There is a larger hardcover book out on Jadite but it's about double the retail price of this smaller book. So this one is a great deal. I highly recommend this book. Thank you. 0 of 0 people found the following review helpful. One Star
By Angela Martino
This book was a disappointment in the area of identification of authenticity and value of Jadite
0 of 0 people found the following review helpful. Very good book
By march23jdm
Jadite seems to be real big now and my wife enjoys so much all the information in this book. Highly recommend.

This handy pocket guide illustrates and prices over a thousand Jadite and Delphite household glassware pieces, including many rarities. Most of the pieces shown were produced by Anchor Hocking, McKee, or Jeannette Glass companies from 1930-1970. Kitchenware, dinnerware, and household accessories are illustrated in color, with current prices for the extremely popular Jadite and its more elusive blue counterparts, including both Delphite and Chaline. Additionally Fire-King's opaque blue dinnerware lines are included.
