Must understand it is Exactly as pictured, nothing more - half ship Only - and Tiny - can hold entire set in your palm. Blink and you'll lose lifeboat. Younger kids (7yr) will want the ship to have a front half, and for you to read the book to them. Mini book is very clever for adults; parent will have to creatively ad-lib to child. Cartoonish pictures help. Strongly glue lifeboats to water if you don't want to lose them. Son and I really like set despite its "shortcomings." 0 of 0 people found the following review helpful. It is so small but great as a novelty not an impressive gag gift By RebeccaPierceUSBought this for my kid as a little novelty toy (he is obsessed with the Titanic history) not for the 'message' it would convey as a 'gag gift'. It is so small but great as a novelty not an impressive gag gift. 1 of 1 people found the following review helpful. Just be warned it's 1/2 a ship By CustomerJust be clear that this is half of a ship. Basically what the Titanic looked like after it broke in 2 and the rear portion started to sink. My 4 year old for whom it was bought keeps asking me to buy him the rest of the ship. He has played with it quite a bit though and does understand that the ship is sinking. It's an ok toy but very small so I would not purchase for a younger child especially with the teeny lifeboats and propellers that are detachable.

It's rocky in the sea of office survival. And statistics show that workers are drowning: 80% are stressed; 77% are completely burned out. With waves of paperwork and pressure, who wouldn't want to send distress signals from their desks? To save a friend-or yourself-with a sympathetic lifesaver, we offer you Desktop Titanic. With its mini maritime-

disaster replica and 32-page book including life-saving tips to stay afloat in the office, life can go on!
