Scott Russo : East Meets West Mini Address Book before purchasing it in order to gage whether or not it would be worth my time, and all praised East Meets West Mini Address Book:

1 of 1 people found the following review helpful. Small address book nice cover, pages a bit bland By Jen V. This is a nice sized address book, a bit big for a pocket but small enough for a purse. The cover is sturdy with nicely colored small Chinese graphics. I was really hoping for more graphics inside the book. The address pages are all red and tan with the same few tiny red graphics repeated on each page. Each page has room for three contacts with lines for name, address, home, cell, work, fax and email. It is a small address book so don't expect much room on the lines, you have to write small to get the information to fit. 0 of 0 people found the following review helpful. A Unique Address Book! By Customer This is a very unique little address book! I've actually gotten compliments on it from both males and females believe it or not. Also, it's small enough to fit into any book bag, backpack, handbag or purse. I use mine

so much that it definitely has some wear and tear but it's still a stylish way to carry all of my contact info.

The perfectly portable companion, the East Meets West address book is small enough to slip into your pocket and light enough to carry with you always. Designed for keeping track of family and friends, it's an ideal way to stay connected and organized in style.
