2 of 3 people found the following review helpful. Not What I Expected By Gail Barrett Not what I expected. It's a series of lectures, not a cohesive book about the topic. Some of the material was interesting, but a lot was not.

When there have been opportunities for profit from deception, there have always been people ready to engage in sharp practice and ready to perpetuate fakes and frauds. These essays throw light on some of the more shadowy areas of book trade history, revealing tricksters, villains -- even murderers -- who have practiced deception in the written and printed word, from 12th century to very recent times. "Fakes Frauds" includes chapters on: "The Forgery of Printed Documents" by Nicolas Barker, "Forged Handwriting" by Tom Davis, and "Paper Pirates" by Michael Harris. This book also covers aspects of all the great forgers -- Wise, Prokosch, Hofmann and others. Co-published with St. Paul's Bibliographies."
