Joseph L. Mashburn, J. L. Mashburn : Fantasy Postcards with Price Guide: A Comprehensive Reference before purchasing it in order to gage whether or not it would be worth my time, and all praised Fantasy Postcards with Price Guide: A Comprehensive Reference:

9 of 9 people found the following review helpful. A marvelous reference for fantasy postcard collectors...By Laura HaggartyMashburn writes great books, no question about it. This particular postcard guide focuses on fantasy

postcards, which are a particular favorite of mine. He covers all the basics: fairies, nursery rhymes, dressed animals, mermaids, teddy bears, Santas, Krampus, nudes, death fantasies, Halloween, Hold-To-Light, and a whole host of other types of weird and wonderful subjects. As well, Mashburn gives us a comprehensive history of postcards and collecting, covering the seven eras of postcards. He discusses the various types, how to date them, grade them, and value them. Since the book was written in '96, his prices do not always reflect current online auction prices, but that's understandable. My only real quibble with this book is that after reading through it and looking at the many black and white illustrations I only wanted to go out and buy more cards! A wonderful book, don't hesitate. 0 of 0 people found the following review helpful. Awesome seller, good BW ref. guide and very fast delivery...By crafty girl Thank you!
