I have learned how to clean these dolls and clean and style their hair. I plan on doing more in the future and everything I need is in this series. 5 of 6 people found the following review helpful. not quite what i wanted By Susan Gooch honestly, i was looking for a book on how to do restorations on vintage barbie dolls, and this is just not the book for it! there is one small section in the very end of the book that tells how to do some hair makeovers, but that's it. it's more a book on "famous" artists that have done fashion doll makeovers and their stories. if you're looking for a tutorial on doll restoration, look online. you'll find more information there. 13 of 13 people found the following review helpful. Good inspiration By A Customer Great if you need inspiration but it's short on how tos. Some of the

artists featured here have created true masterpieces. I just wish there was more on how to create your own.

If you have ever dreamed of creating a doll, here is the inspiration and the information you need to begin! Over 300 color photographs.
