I wish there had been more! If anyone wants to remember the fun 80s, or is too young and wants to see how we dressed, please look into these Fashionable Clothing books, they are excellent. 0 of 0 people found the following review helpful. Sears Catalog from Mid-1980s By Annette This was a requested gift for my daughter's birthday, she loves the fashions from the 80s and it was well received. And I agree the fashion world could learn a lot from the 70s and 80s

The ongoing Sears catalog series continues with a look at the mid-1980s. Nearly 400 color images portray the fashions and distinctive styles worn during this time. Shoulder pads, mannish-looking suits, and big hair were popular, influenced by stars Don Johnson, Madonna, the cast of Dynasty, and Princess Diana. See how many of these clothes you remember wearing; some styles from this time have come back to life now. It's a wonderful nostalgic walk down memory lane that inspires clothing designers today.
