**From Brand: Lavolta Press : Fashions of the Gilded Age, Volume 2: Evening, Bridal, Sports, Outerwear, Accessories, and Dressmaking 1877-1882** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fashions of the Gilded Age, Volume 2: Evening, Bridal, Sports, Outerwear, Accessories, and Dressmaking 1877-1882:

3 of 3 people found the following review helpful. I suggest purchasing Volume 1 first. By B. R. This book is a great source of historic patterns. However, I purchased Volume 2 first because I was looking for evening gown designs, but then realized that Volume 1 actually has more dress patterns, and some of the basics needed to go with the patterns in Volume 2. So now I own both volumes! Someone may have mentioned that in an earlier review but I must of missed

it. It is ok because both volumes are fun to look through and read the fashion descriptions from the 1800s. Have not made a dress from it yet, but am reading and planning for my first one. Will see how it goes! 5 of 5 people found the following review helpful. Edutaining! By Mandy L. Hendrix This book (series, really) is awesome! I am intermediate in my sewing abilities, and found it very easy to decipher and use. I am making a wedding dress from a mix of patterns found in these books. Very period-accurate, nice fashion plates, well written, clearly explained. You could not ask for more. I recommend that you make your first attempt or few from cheap/recycled material, until you are comfortable with how pieces of this time are made, as it is far more complicated than most of today's simplified and streamlined patterns. Be prepared to put in some hours on a good piece. If you are just want to educate yourself on fashion's of the Victorian era, this is a great series for you! 5 of 5 people found the following review helpful. Brilliant! By Ronin This entire series from Frances Grimble is the most astounding amount of compiled research we've ever seen! A valuable resource for costumers, re-enactors, history aficionados, or anyone wanting a comprehensive look at these fashions and the culture surrounding them. I purchased the entire set for my wife (costumer, historian...) and we were completely impressed with both the quality of the content as well as the layout and organization of the series. Absolutely recommended...worth every penny!

Contains 184 authentic sewing patterns and instructions for women's garments. Includes special rulers that enable drafting to custom sizes. Quotes from original fashion magazines and other sources give additional information on construction, materials, and wardrobe planning. Also included is an 87-page, illustrated manual on period dressmaking and millinery. For theatrical and reenactment costumers, vintage clothing collectors, brides, and doll artists.
