Almost doll house material.1 of 1 people found the following review helpful. Little By cinDear /Fiesta Ware:Very Disappointed ..... I wanted to give this book as a Bridal Gift to go along with the 4 five piece place setting I just purchased ..... and perhaps she may want to collect Fiesta Ware ..... But as it turns out I did go to a local Book Store and purchased another Fiesta Ware book. And not to mention the \$ Price \$ of this book ....I was under the impression it was a decent "SIZE" reference book in which she could refer to the book. Little, you all do mean little.Thank You Anyway : ( CinPS I am very surprised in , I have always been quite please in my past purchases.1 of 2 people found the following review helpful. not kidding about "little"By kjwThis book is very

expensive (\$\$\$) for something LESS THAN HALF THE SIZE OF A DECK OF CARDS. The dimensions of the book should have been given. Poor choice for any REAL information.
