Frank Frazetta : Frazetta Pillow Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Frazetta Pillow Book:

Too many little gnome penises for my liking but other than that it's some of Frazetta's best work most definitely. I really wish he'd done more like this before we lost him. I recommend it to everyone whether you're a fan or not. Modern comic and fantasy artists with their fancy computer programs can't hold a candle to this late master.0 of 0 people found the following review helpful. Five StarsBy CustomerWell, Frazetta. I mean, come on. What more needs to be said? It's his cuter sexier paintings.0 of 0 people found the following review helpful.
